Victor Gabriel T. Oliveira

9th-semester Computer Science student at UFRPE seeking an academic internship.

I have experience in both academic and real-world software development projects, working individually and in teams. My expertise includes web and mobile technologies, database schema design, API development, code testing, and Docker containerization.

💻 Projetos

1. Chef Hub: web/mobile cooking recipe generator using ChatGPT and Bing create AI

2. Bootcamp Full Stack: SpringBoot, JPA, React

3. Java Web Service: SOA architecture with the SOAP protocol

4. Reinforcement Learning: Multi-agent environment with DQN and PPO

5. Image processing and natural language processing

✅ Skills

- Functional, Object Oriented and Imperative paradigms

- Python, Javascript, Java, SQL, C#, Haskell, Go, Dart

- Libraries: Numpy, Pandas, Axios, Shadcn, Jest, others

- Backend: NodeJS, Express, NestJS, Springboot, Spring JPA

- Frontend web/mobile: React and Flutter

- Database: MySQL, PostgreSQL and SupaBase

- CI/CD with Docker, GitHubActions, DockerHub, K3D e Helm

- Code patterns: Singleton, Facade, Decorator

- Problem solving

- Proactive

- Teamwork
